Complete a Deployment Health Assessment

Completing a DHA (Pre-DHA/DD2795, PDHA/DD2796, or PDHRA/DD2900) is a two-part process:

- 1) Fill out and submit the DHA form online via the EHA Web application at <https://eha.health.mil/eha/>. **For PDHRA only:** Reserve component and Active component Service members remotely-located (TriCare Prime Remote enrolled and without access to a military treatment facility (MTF)) can utilize the DoD RHRP contract support services, QTC, to complete the PDHRA/DD2900. The Service member must register on the QTC portal first using the following link <https://smp.qtcm.com>.
- 2) Once the DHA is submitted on-line, please schedule a person-to-person assessment with a medical provider at the nearest MTF to have your DHA medically certified. **For PDHRA only:** Reserve component and Active component Service members remotely-located (TriCare Prime Remote enrolled and without access to an MTF) can utilize the DoD Call Center at 1-833-782-7477 for medical certification.

For issue logging-in to EHA, contact the Help desk: (757) 900-9050 or (757)953-0737 or email at usn.hampton-roads.navmcpubhlthcenpors.list.nmcphe-pha1@mail.mil.

For Sailors supported by other Services' medical facility, the DHA can be completed in MEDPROS (Army) or ASIMS (Air Force).

DHA Compliance Biweekly Update

Signed By eric.m.labat.civ@us.navy.mil

Good afternoon BSO & TYCOM POCs,

Three important items in this correspondence: **DHA June Biweekly Update**, **Deployed Report** and **PDHRA Long Overdue List**.

BLUF: Commander CSG-2 has mandated completion of PDHA/DD Form 2796 and the follow-on PDHRA/DD Form 2900 for Sailors that deployed under CSG-2. The ships involved have provide rosters for the Sailors who are affected by this mandate. Some deployed under TEMADD orders to these ships and some of the permanently assigned Sailors to these ships have since PCS'd to other commands. To help track these TEMADD or PCS'd Sailors, we have highlighted their names in **yellow** in the attached spreadsheet. If any of these Sailors are now under your command, please direct them to complete the appropriate deployment health assessment as noted in the spreadsheet.

1) DHA Biweekly Update – 21 June 2024

NOTE: The data included in this update is reflected on MRRS data of 21 June 2024. PDHA & PDHRA compliance rates are reflected accordingly on the attached slides. **Navy-wide PDHA compliance rates for May 2024 Redeployers are 32% and June 2024 Redeployers is 65%. Navy-wide PDHRA compliance rates for December 2023 Redeployers are 50% and for January Redeployers is 27%. All compliance rates are Unsatisfactory.** Refer to your respective BSO for compliance rates. This update provides you with a snapshot of where your respective BSO's status. As you would imagine, "Unsatisfactory" compliance rates are unacceptable. Providing you with this information arms you with more than enough information for your subordinate UICs to improve their compliance rates per established policy.

NOTE: For the compliance rates to achieve anywhere near the 95% compliance rate, established by DoD, it is vital that your leadership, at the BSO level, is fully engaged. If you are having challenges with your subordinate commands, your leadership would certainly not. Sending "Unsatisfactory" messages to your leadership may be interpreted as you may not be doing your job well. Well, this is not working. These monthly notices should provide you with enough information for your subordinate commands to achieve the defined compliance rates. Commanding officers at the UIC levels are ultimately responsible for their Sailors. It appears that based on these compliance rates, for some, that they are failing their Sailors. Refer to OPNAVINST 6100.3A, Deployment Health Assessment Process, for the governing document that provides unit commanding officers and their DHA responsibilities for their Sailors.

The attached DHA Biweekly Update provides you with ample information for your subordinate units to effect changes to improve compliance rates where needed. Direct your attention and action for each assessment in the slide deck which provides not only the numbers of statuses, but also and most importantly, an Excel spreadsheet of the individuals that have a DHA requirement to be completed, whether it is Due, Overdue or Long Overdue.

DHA compliance rate thresholds: **Satisfactory: >= 95%** **Needs Improvement: 80 – 94%** **Unsatisfactory: <80%**

2) PDHRA Long Overdue List – 21 June 2024 (included in Biweekly Update slides)

The PDHRA Long Overdue List has been a consistent part of the Biweekly Update and Closeout Report. The list included in this biweekly update is dated 21 June 2024. As of this update, there are 333, less than 3% decrease (Closeout Report (08 June 2024 – 343) of Long Overdue PDHRAs. **These 333 Long Overdue PDHRAs, when completed, will have a direct impact on the improvement of the overall**
